

**Capture the bond between
people and their pets**

**Join Dr Harry and
Dr Katrina for friendly and
caring advice for keeping
your animal friends happy**

HARRY'S practice

HARRY'S practice

181 x 1/2 hrs

**"He's out on the road helping us out...
if there is a pet with a problem he'll sort it out...
because they are all part of our family - the great and the small
- and Harry's a friend to them all... "**

At work in their practice and out on the road, join vets Dr. Harry Cooper and Dr. Katrina Warren for everything you need to know about your pets.

Do you have problems with digging dogs, confused puppies, a cold lizard, pestering ducks, birds who are scared of the dark, troublesome sheep, over friendly pigs, a goldfish with its tail bent in half? Train your cat to come when called, teach your puppy to love his walking harness, learn what is needed during post operative recovery. Special and caring advice on all your pets' problems.

Out on the road, Dr. Harry makes genuine surprise house-calls to viewers who have written in, begging for his help with their animals' behavioural problems.

Your puppy has a new game - tearing clothes off the line. Your new kitten escapes when you are not home. Our "Pet Cam" segment can capture the behaviour at its worse. Dr. Harry will explain and help solve the problem. Dr. Katrina investigates bizarre animals, including the rhino beetle, the sea horse, axolotls, and stick insects, as potential family pets, and road tests many great and inventive animal products along the way.

Always intriguing, often emotional, the charming and friendly Harry's Practice captures the special bond between people and their pets.
