The great **ITALIAN** *Cafe*

There are so many wonderful things about Italy. The food, fashion, architecture, beautiful people and fantastic cars. But for many Italy is about coffee and cafes.

Whether it's cappuccino at breakfast or espresso in the afternoon, this wonderful brew seems to somehow fuel the entire country and drive the people that live here.

The Great Italian Cafes are treasures that allow us to experience the history, culture and style of the worlds coffee capital and the country that invented espresso.

Enjoy an authentic travel experience as we journey through the best in café culture from Venice, Treviso, Milan, Turin and Bologna celebrating the passion of the country's aficionados, the regional variations in coffee culture and the role the Great Italian Café has played in the development of Italy.

A coffee lover's celebration of the Great Italian Café.
